Products

General Purpose Tents / Relief Tents

Tents are generally used in camping purpose or anywhere for temporary arrangements. It gives protection from sunlight and rainwater. It can be ready within quick time. With support of Pipe and Strings any size of customized Tents can be made.

We are also specialized in making material which is mainly used for Relief Tents by NGOs as like UNHCR, IOM, GOAL etc. It contains Reinforcement Bands or Printing of LOGO at regular intervals.

Wagon Cover

In our nation Railway Transportation is easy and economical. Many Government and Private Departments transfer their goods through Railway as like Coal or Lignite, Fertilizer, Salt, Chemicals etc. Railway has open Wagon where easy filling of these materials can be done. But, For transportation from one destination to another they need Tarpaulin Protection.

We are designing and manufacturing all types of Wagon Covers. Wagon Covers can be also made of five Layers so they can withstand against any Chemical Reaction to materials. They are like Box Type cover. Department has to just tie rope to Wagon. It is ready made stitched cover with strings to tie to wagon.

Products

Woven Sacks or Bags

Ambica Geotex has a wide range of woven sack product offerings. They are fabricated using superior quality raw material such as PP/HDPE fabric or sheets. The company offers high quality PP woven bags and sacks with tremendous strength and durability. Their attributes differ according to application and the client's requirement. Properties such as water resistance, light weight and strength to handle all kinds of strains have made this product popular among the customers and increasingly replacing jute and paper packing.

Main Application Area of Wovensack Bags are as follows.

- Fertilizer Bags
- Cement Bags
- Sugar Bags
- General Purpose PP / HDPE Woven Sacks
- Salt Bags
- Food Grain Bags (DGS&D or FCI)
- Flour Bags
- Jumbo Bags

Products

Vermi Bed

Vermi Beds are used for Vermiculture. Earthworm is easiest and economic technology to convert Bio Degradable waste into best quality Organic Manure. All types of Agro wastes like Solid Waste, Food Processing Waste etc. can be transform into useful Manure.

Ideal size of Vermi Bed is 6 Ft x 4 Ft. x 2 Ft.

Color : Green / White.

It comes with heat sealed pocket for easy fitting with pipes for standing.

It has six air circulation pockets with Net. Special Hole for drain out.

Fumigation Cover

Fumigation is a method of Pest Control that completely fills an area with gaseous pesticides or Fumigants to suffocate or poison the pests within. It is used to control pests in buildings or structural fumigation, soil, grain, and produce, and is also used during processing of goods to be imported or exported to prevent transfer of exotic organisms.

Our Tarps are made contains three or five layers with welded seams to ensure no gas can escape. The Edges of Covers are reinforced with special tear resistant ropes so it can be easily handled by even cranes or lifting equipments.

We can design and fabricate a custom shaped fumigation tarp to fit over a permanent frame and can provide water filled edge tubes for sealing the cover against the ground.

Products

ISI Tarpaulins

IS 7903

CM/L-3777280

In General following specifications are used in ISI Tarpaulins.

GSM :250 or 340 (5 Layer)

Color :Black

Size :6 m x 8 m

Breaking Strength, Tear Strength, Puncture Resistance, Water Proofness, Welded Seam Strength, CBC Content all as per IS 7903 : 2011.

We have annual rate contract (RC) or working with Government of Andhrapradesh, Government of Karnataka, Government of Rajasthan, Government of Gujarat, DGS&D etc.

Geomembrane / Pond Liner

A Pond Liner is an impermeable geomembrane used for water retention, including the lining of lakes, garden ponds and artificial streams. Pond Liners need to be protected from sharp objects (like stones) below the liner and from being punctured by any objects in the water body.

Pond Liners are manufactured in Rolls. Rolls are welded together on site. It can be available from GSM starting from 400 to 700. They are made of Seven layer material so have High Puncture Resistant and Water Proofness.
